SUMMARY

A B.Tech Computer Science student and a Full-Stack Developer proficient in Laravel, PHP, and MySQL. With hands-on experience in creating diverse projects such as digital marketplaces and responsive web applications, I strive to build solutions that enhance user experiences. Founder of Amit Code Hub, I am dedicated to fostering a developer community through tutorials and collaborative projects.

EXPERIENCE

Web Developer Intern

E-commerce Platform

 07/2025  Lucknow

- Focused on developing an e-commerce web and mobile application using React.js and Flutter.
- Built components, integrated APIs, and developed the complete user flow from product browsing to checkout.

EDUCATION

Bachelor of Technology (B.Tech)

SR Institute of Management & Technology

 2022 – 2026  Lucknow

Intermediate (12th) & High School (10th)

Naval Academy Inter College

 2020 – 2022  Kushinagar

PROJECTS

Amexa - Developer Assets

Digital marketplace for developer assets

- A full-stack marketplace for users to buy and sell developer assets such as code and themes.
- Technologies used: Laravel, MySQL, HTML5, CSS3, and JavaScript for the development.*

URL Shortener Website

Web application for URL shortening

- Created a web application for converting long URLs into unique, short links.
- Technologies used include PHP, Laravel, and MySQL.*

Personal Portfolio Website

Personal portfolio to showcase personal projects and abilities

- Developed a responsive portfolio website to display skills, projects, and experience.
- Used Laravel, MySQL, HTML5, and CSS3.*
